FRIENDLY MATCH SHOOTING

Denmark vs Netherlands

9th and 10th September 2017

WELCOME TO ESBJERG, DENMARK

It's a pleasure welcoming The Nederland's to this friendly match here in the city of Esbjerg, Denmark. I hope you will enjoy the hospitality and the beautiful city of Esbjerg, and I know that the host are well prepared for having and hosting you.

Being good at shooting is a must for all police officers in Europe and around the world – and unfortunately it has never been more important than these years. Shooting is as well a discipline that demands and requires good mental preparedness – also very important skills for being a good alert police officer.

I wish you all a good friendly match – and remember – it's good winning, but even better participating.

Best regards

Knud Stadsgaard
President
Danish Police Sport Federation

WELCOME

As head of the shooting section in Danish Police Sport Federation it is with great pleasure, that I welcome the shooting team from the Dutch Police Sport Union to the very first test match in various shooting events with rifle and pistol between our two countries.

The test match takes place on the shooting ranges belonging to Esbjerg Skyttekreds, and the Danish Police Sport shooting team is looking very much forward to the competition with the Dutch shooters.

Unfortunately the European Police Championships in Kazan in Russia were held in the holiday period, and because of that it was impossible for the Danish shooters to get off duty. This test match is a good opportunity for the Danish shooters to obtain experience in international shooting competition or to uphold the international skills already made, and therefore I was very pleased to receive the good suggestion from the Dutch shooting delegate Paul Onckels.

I hope, that the shooters will have an enjoyable weekend with friendly competitions in the company of good colleagues.

Jan Poulsen
Head of shooting section
Danish Police Sport Federation
